DETAILED ACTION

Amendment

1. Receipt is acknowledged of the amendment filed 23 July 2007.

Allowable Subject Matter

2. Claims 20, 41, 62, and 64-66 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments regarding the Brusky reference (in the response filed 1 February 2007) are persuasive. Applicant's amendments to the claims filed 23 July 2007 overcome the 35 USC 101 rejection. The best prior art of record fails to teach a method/system/medium for interfacing an object identifier reader to an application which utilizes the interaction of the data with the first and second communication ports as recited in the claims. Hence the best prior art of record fails to teach the invention as set forth in claims 20, 41, 62, and 64-66 and the examiner can find no teaching of the specific method/system/medium for interfacing an object identifier reader to an application, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's response/remarks filed 23 July 2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
